Valid for broadcast until the next bulletin at 11:00 PM today.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to **Weather Advisory No. 8 issued at 05:00 PM today** for the heavy rainfall outlook due to TC LUIS and the Southwest Monsoon.

Severe Winds

The wind signals warn the public of the **general wind threat** over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The Southwest Monsoon and the periphery of LUIS will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today and Tomorrow (04 August):** Most of Luzon and Visayas, Zamboanga del Norte, Lanao del Norte, Misamis Occidental, Camiguin, Surigao del Norte, Dinagat Islands, Sarangani, Davao Occidental, and Davao Oriental.
- **Wednesday (05 August):** Most of the country.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 3.0 m:** The western seaboard of Pangasinan
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The seaboards of Isabela and Zambales; the northern and eastern seaboards of Polillo Islands; the northern seaboard of Camarines Norte; the eastern seaboard of Davao Oriental; the northeastern seaboard of Aurora.
- **Up to 2.0 m:** The seaboards of Batanes, Cagayan including Babuyan Islands, Ilocos Norte, Ilocos Sur, La Union, Surigao del Sur, and Davao Occidental; the western seaboards of Bataan, Cavite, Batangas, Occidental Mindoro including Lubang Islands, and Calamian Islands; the northern seaboard of Camarines Sur; the northern and eastern seaboards of Catanduanes and Northern Samar; the eastern seaboards of Albay, Sorsogon, Eastern Samar, Dinagat Islands, and Siargao-Bucas Grande Islands; the southern seaboard of Davao Oriental; the remaining seaboards of Pangasinan.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TROPICAL CYCLONE BULLETIN NR. 12

Tropical Depression LUIS

Issued at 8:00 PM, 03 August 2026

Valid for broadcast until the next bulletin at 11:00 PM today.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to “Other Hazards affecting Land Areas” for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- LUIS will begin turning east northeastward towards the Philippine Sea for the rest of the forecast period. The forecast track is highly uncertain and may change in the succeeding bulletins.
- LUIS is forecast to remain as a tropical depression in the next 12 hours and may be downgraded into a remnant low by tomorrow (04 August) before becoming fully assimilated into the circulation of Tropical Cyclone DOLPHIN. Due to unfavorable conditions, an earlier weakening is possible.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 PM today.
